The Kingsport Greenbelt is a linear park that connects the residential neighborhoods, traditional parks, downtown, commercial districts, schools, and activity centers. A special feature of this unique park is a pathway for pedestrian and bicycle use. The pathway meanders along gentle streams, wanders through the marshlands, glides across open meadows, and passes by sites of historical and aesthetic value.

Staff will accommodate choosing bikes appropriate to the heights of participants. Discussion will be had as to the working of the bikes along with a safety talk.

This is an 18-20 mile ride in the GreenBelt. It will be mostly flat, paved by the river, and through a canopy of greenery and trees. We may stop off for ice cream at a local favorite, “The Marble Slab”.
