

April 14 – April 19, 2019 (Sunday–Friday) 43rd Stationary Source Sampling and Analysis for Air Pollutants

SOURCE
EVALUATION
SOCIETY

Sheraton Bay Point Resort Panama City Beach, Florida Mark your calendars...

Planning for the future? Start making your plans to attend the 43rd SSSAAP Conference, to be held at the Sheraton Bay Point Resort Panama City Beach, Florida sheratonbaypoint.com. The Source Evaluation Society is completing plans for its international conference to be held Sunday through Friday, April 14 – April 19, 2019. The conference format, as always, will include technical presentations and will also allow for multiple opportunities for attendees to have meaningful discussions with people from all aspects of the testing industry. This conference offers a unique opportunity to interact with emissions measurement professionals as well as representatives from industrial source operations, regulatory agencies, and consulting/engineering/laboratory firms all within a highly interactive setting.

Technical sessions will focus on emerging issues resulting from complex interactions between regulatory developments, evolving testing and measurement technologies, industrial source operator perspectives and changing needs, field and laboratory problem-solving, data management, and data quality objectives. The agenda of the 2019 conference will be comprehensive and designed to support and foster participation, interaction and above all communication.

Planning will start early this summer, conference details and registration information, as they develop, can be found at: <http://www.sesnews.org/>

SES membership is not necessary to attend the conference. If you are not a member of SES, and would like to be included on our mailing list for conference announcements and registration materials, please send your contact information to:
